

## CybraryShare™ Software

**Libraries**  
**Schools**  
**Corporations**

### Features

- Simple to use, calendar schedule interface.
- Ability to publish schedule into a web page for your patrons and staff to view from home.
- Password protect events to prevent unauthorized personnel from changing the schedule and event details.
- Manage facility space reservation, seating, and catering for all rooms.
- Associate resources (e.g. projector) with a facility and/or room.
- Print out daily and weekly room schedules.
- Registration allows patrons to sign up for an event, and blocks patrons from signing up when the room has reached its limit.

### Benefits

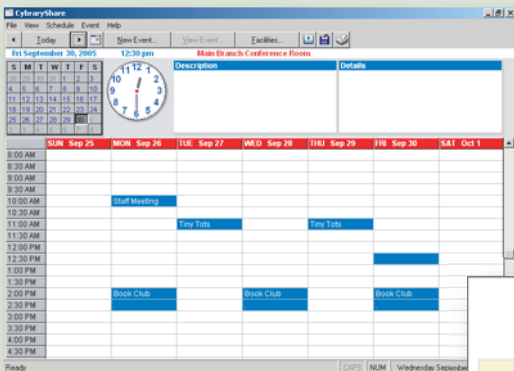

- Prevent overbooking of meeting rooms and equipment.
- Simplify the process of reserving resources and meeting rooms.
- Eliminate sign-up sheets.
- Provides use of your library resources in a fair and equitable manner.
- Save staff time and intervention.

### Requirements

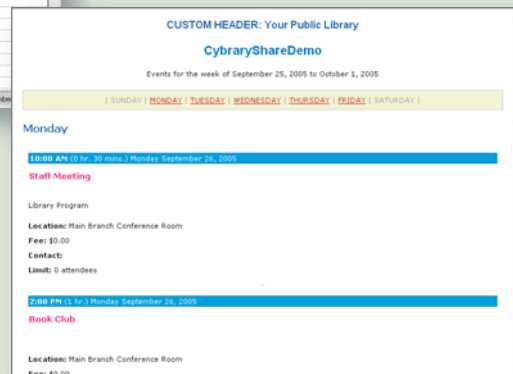

- Windows® 98/NT/2000/XP compatible computer.

CybraryShare™ software manages "the who, what, where, when, why and with" of planning resource scheduling. Use CybraryShare™ Software to automate the process of reserving library meeting rooms, classrooms, labs and other library resources. The CybraryShare™ Software manages all public and staff access to resources in an efficient manner that prevents conflicts and overbooking. Specifically designed for libraries, CybraryShare™ Software is a convenient way to schedule and reserve rooms, equipment, personnel, and attendees.
